

Comprehensive Services

Motor Vehicle Accident Rehabilitation - post Car Accident Rehab

For your convenience and to serve you better, Total Physio focuses on Motor Vehicle or post Car Accidents Rehabilitation through our Patient Care Team. TOTAL PHYSIO is focusing efforts on promoting our clinics unique rehabilitation model for MVA - Motor Vehicle Accident programs. She will also provide In-Home and Activities of Normal Life Intervention Assessments, as well as Functional Abilities Evaluations through the Arcon System.

We understand that Motor Vehicle Accident injuries cause limitations, pain and discomfort in people's lives. At Total Physio Clinics, we believe you shouldn't have to suffer through the pain. We can help!

Services Offered:

- Initial Assessment post car accident and periodic reassessments to monitor progress.
- A therapeutic and rehabilitative program, which is customized to each patient's needs.
- Variety of manual and modality therapies including: Chiropractic, Physiotherapy, Massage Therapy, Acupuncture, Psychotherapy, IFC, TENS, Ultrasound, Laser, Orthotics, etc.
- Active personalized rehabilitative exercise program to return the injured person back to pre-accident functional status.
- Work conditioning/hardening programs to aid the patient in returning to work with a decreased risk of reinjury.
- A wide range of assessments including: functional capacity evaluations, in-home assessments and Activities of Normal Life Intervention reports.

The fee is typically covered by your accident benefits claim through your car insurance. MVA patients must see one of our Physiotherapists or Doctors of Chiropractic for an initial assessment of their injury or injuries before proceeding with regular sessions. At Total Physio, it is common for the patient to see multiple professionals at our clinic. Massage Therapy is usually integrated into MVA treatment as many people suffer from stiffness and soreness after a car accident. After the assessment, a treatment plan is then prepared with the patient and a report is provided to the family doctor and the patient's insurance company.

What to do if injured in a car accident

1. Report the accident to your insurance company within seven days. You should know details regarding the accident, such as your own insurance information, the other parties insurance information, description of the accident, extent of the damage/injury, name and badge number of the police officer involved.
2. Once your claim is reported you will be contacted by the claims adjuster assigned to your file - this person will help guide you through the claims process.
3. By Law, if you are injured in a motor vehicle accident, you are entitled to certain benefit regard-less of fault. Some examples include: income replacement, care-giver, medical and rehabili-tation benefits.

4. Your adjuster will provide you with an Application for Accident Benefits Package which should include 5 forms: OCF1, OCF2, OCF3, OCF5, and OCF23. Each form must be completed and returned to the insurance company in a timely manner in order for the claim to be processed.

5. Once your insurance company has received and reviewed your Application for Accident Benefits, it will inform you in writing which benefits you can expect to receive and which portions of your claim your insurance company will pay for.
